Mr. Jani G. Mohinani
National Coordinator,
Japan

Dear Mr. Mohinani,

Radha Soami! Everyone here at Dera and throughout the world is aware of the tragedy which has taken place in Japan. The destruction and misery on such a large scale is unimaginable. Our hearts go out to everyone affected. To their credit the Japanese people have met this tragedy with grace and dignity. Even when faced with personal loss they have given comfort and help to others, never losing their sense of humanity. Their exemplary behaviour is an example for all of us. It is my hope that our sangat in Japan has not been too adversely affected by these events. We pray to the Lord that the worst is over and life for so many people can quickly return to some semblance of normalcy. Our life in this world is short and uncertain. We need to stay ever vigilant and keep focused on the real purpose of life; to regain our conscious contact, through our meditation, with the *Shabd* within. With our efforts in meditation, and with His love and grace, we can secure our transition from this world of pain and suffering to an eternity of bliss and happiness. Never lose faith in the Lord's love and compassion. It is our meditation alone that will be of any real help to us, nothing else provides any lasting benefit. In the face of these recent events, please continue your spiritual practice with a renewed sense of purpose and commitment.

With love and affection,

Yours sincerely,

(G. Dhillon)
